THE INQUISITION

THE EMPEROR’S HAND

These datasheets allow you to fight Apocalypse battles with your Inquisition miniatures. Each datasheet includes the characteristics profiles of the unit it describes, as well as any wargear and special abilities it may have.

KEYWORDS

On the Inquisition Land Raider Prometheus datasheet you will find the <Ordo> keyword. This is shorthand for a keyword of your choosing, as described below.

<Ordo>
All members of the Inquisition belong to an Ordo. Some datasheets specify what Ordo the unit is drawn from, but where a datasheet does not, it will have the <Ordo> keyword. When you include such a unit in your army, you must nominate which Ordo it is from. You then simply replace the <Ordo> keyword in every instance on that unit’s datasheet with the name you chose.

For example, if you were to include an Inquisition Land Raider Prometheus in your army, and you decided it was from the Order Xenos, then its <Order> keyword is changed to Order Xenos, and its Transport ability would say ‘This unit can transport up to 10 friendly Order Xenos Infantry models. Each Terminator model takes the space of 2 other Infantry models.’
