

# ADEPTUS ASTARTES

## DEFENDERS OF MANKIND

These datasheets allow you to fight Apocalypse battles with your Space Marines miniatures. Each datasheet includes the characteristics profiles of the unit it describes, as well as any wargear and special abilities it may have.

### KEYWORDS

Throughout these datasheets you will come across the **<CHAPTER>** keyword. This is shorthand for a keyword of your choosing, as described below.

### **<CHAPTER>**

All Space Marine units are drawn from a Chapter. Some datasheets specify what Chapter the unit is drawn from, but where a datasheet does not, it will have the **<CHAPTER>** keyword. When you include such a unit in your army, you must nominate which Chapter that unit is from. You then simply replace the **<CHAPTER>** keyword in every instance on that unit's datasheet with the name of your chosen Chapter.

For example, if you were to include a Chaplain Venerable Dreadnought in your army, and you decided he was from the Blood Ravens Chapter, his **<CHAPTER>** Faction keyword is changed to **BLOOD RAVENS** and his Icon of Hate ability would then read 'Add 1 to wound rolls for attacks made with melee weapons by friendly **BLOOD RAVENS** units whilst they are within 6" of this unit.'

You cannot choose the **GREY KNIGHTS** or **LEGION OF THE DAMNED** keyword when nominating which Chapter a unit is from.
